

# Biggest Gainers: Stocks Primed to Blast You Past the Competition!

As the opening bell rings this strategy is your best plan to spot the titans breaking free in the first 30 minutes—when the market's pulse beats hardest. By harnessing stocks making the biggest moves in early trading, you're not just observing the action—you're in position to lead the charge.

A great time to use this strategy is within the first thirty minutes after the market opens.

Scanz provides PREBUILT SCANS to identify Biggest Gainers opportunities.

Within Scanz you may access the Biggest Gainers Prebuilt Scanner by: Selecting Prebuilt Scans, select the menu option Biggest Gainers, then choose Today's Gainers, to begin select Percentage, and for a large selection of inexpensive trade options choose: Biggest Gainers - \$10 and above.

## You may customize this scan to either:

- ↑ Select a lower stock price to include more trade opportunities. Many experienced traders specialize in lower priced stocks as small price movements provide large percentage increases in value.
- ↓ View fewer trade opportunities by increasing the price filter and/or increasing the volume of a stock. Many traders prefer trading stocks with higher volume to ensure ample liquidity for consistent trade pricing.

Within your scan select each stock to review the chart, review the news, and the recent trades to identify a hot trading opportunity for you.

And, if you want to play stocks to the downside you can do the same to see the biggest decliners.
